

Galilean Nights Event ID: gn1,232

Number of telescopes: 1

Number of organisers: 1

Number of attendees: 6

Event Report:

The evening-party of "Galilean Nights" passed in White Church. An event passed as a private evening-party, in the garden of private house. 6 persons, 2 commands, participated. One command collected a telescope, the second command prepared literature. Some books were read on astronomy and cosmonautics, a textbook on astronomy, published in the USSR, was even considered, in 1986godu. On the atlas of Luny, looked through a telescope and searched the indicated objects, and although not very much turned out to find them, but it was interestingly all and very pleased. "Galilean Nights" helps also to intercourse of friends, which a long ago was not seen and will move such event first.
