Number of organisers: 5

Number of attendees: over 250 people

Event photos: <http://www.flickr.com/groups/galileannights>

Event Report:

The event was a resounding success.

Look at the sky with telescopes

-Moon, Jupiter, Pleiades

People could recognize the sky every day
have over their heads

In a screen to virtually teach them our
Galaxy and could take a virtual tour through the galaxy

Participants

-80% Over 60 years

-15% Over 20 years

-5% Between 6 and 15 years.

The weather was good and allowed a perfect observation and
until the fall of a meteorite

Plan B included radio-astronomy observations and a forum
DVD on the other planets, in an indoor arena
