

Galilean Nights Event ID: gn124

Number of telescopes: 6

Number of organisers: 9

Number of attendees: 100

Event Report:

The activity began with a historic walk through the center of Torrevieja accompanied by a local historian. We visited the Church Square, the museum of the sea and salt and various landmarks. We watched the sky during the ride and watch the sunset. Afterwards, the Moon, Jupiter and the Pleiades with telescopes Galileoscope and association with the historic precinct of the Eras de la Sal About 100 people passed through the telescopes during the 4 hours we had observation. The local television does a report of the activity.
