Number of organisers: 3

Number of attendees: 60

Event photos: <http://www.flickr.com/photos/44176044@N04/>

Event Report:

Fisrt we began with a lecture(1 h 30 min) in the amphitheatre : trailer IYA09, presentations of the IYA09 objectives,organisation, cornerstone projects, Galilean nights), state of the astronomy in Morocco (national candidature for hosting the E-ELT, ALDEBARAN Project in partnership with the UNESCO schools network), presentation detailed of the solar system , presentations of the Moon and Jupiter (we use the two official NG presentations).

After that we spent more than two hour observing the two objects. The weather was perfect and the teachers and pupils were delighted !
