Event Report:

The event took place in the park, allowed generally assign as a great, people of all ages were present. The audience was larger than expected, about 1200 people have seen the wonders of the sky of Bauru in the two-day event. On the first day (23/10/2009) about 850 people participated in the weather helped on the second day (24/10/2009) the weather did not cooperate and about 250 still came to watch. There was a very good advertisement in the local press, newspaper and TV, the web.
