Number of organisers: 12

Number of attendees: 400

Event photos: <http://www.flickr.com/photos/26571529@N04/>

Event Report:

The first nite we went to the new university campus, its just outside the city, so we saw the glory of the Milky way, the 2nd nite we have talks by members of the astronomy society (was our 1st event!), and the last nite we have 22 scopes for the public, nice weather all days, the local newspaper published this, with photos: <http://www.imagenzac.com.mx/gente-estilo/la-luna-bautizo-a-la-asociacion-de-astronomos-aficionados>
