

**Galilean Nights Event ID:** gn574

**Number of telescopes:** 2

**Number of organisers:** 3

**Number of attendees:** +300

**Event photos:** <http://www.flickr.com/photos/museudoeclipse/sets/72157622593655817/>

**Event Report:**

Good Weather. Moon and Jupiter in the sky. Attendees very surprised and happy with the moon and Jupiter. They come initially with curiosity , after was a real "fiesta". Like in Campus da Betânia this was the first experience with telescopes to see celestial bodies. Like Campus da Betânia Betania Campus do Derby is a University Campus too, both are locate in the city of Sobral.
