Event Report:

This event was an exhibition, called "Cosmic Landscapes", of 21 banners with beautiful astrophotos, most of them are HST images. We've added 2 more banners, explaining the Galilean Nights project and the IYA2009, as well as a replica of the Galileo's telescope.

The event took place at the biggest shopping mall in the state. The exhibition was there for 8 days, and dozens of thousands of people could see it.
