Event Report:

This event was programmed and registered as Planetarium Shows, but we were not able to hold it because the mobile planetarium was too big for the location of the event in this city. However, we hold a Plan B activity, with a computer and a projector, we used the software Stellarium to make the presentations.

During the Galilean Nights and Brazilian National Week of Science and Technology, we went in a caravan through 5 cities in the State of Alagoas, bringing this activity to the community of these places.
