**Event Report:**

We started our activity at 6:00 pm with the Lebanese national anthem, and then the words of Tyre Municipality, and Tyre Committee. After that a presentation about what we are going to see outside through the telescope.

Then we start our observations with a 7 telescopes with a different sizes (from 13 cm till 25 cm) and the weather was so nice and the sky so clear.

3 telescopes oriented to the moon, while 4 telescopes to Jupiter. Every one watch the moon get a sticker "I'm moon's visitors", while who watch Jupiter get "I'm jupiter's visitors".

while we give the people also the lebanese astro magazine "Astronomy Sciences" 0th copy, which is the for free and from the lebanese IYA committee, in addition to a bookmark about the lebanese website "[www.astronomy2009lebanon.org](http://www.astronomy2009lebanon.org)".

During the night observation a slide shows "Eyes on the skys" and "From Earth To The Universe" and a lebanese movie about IYA 2009 "Look To the sky" and a lot of a movies and reportages, on a giant screen at the corner of the park.

our show end at 10:30 and it was an amazing night, its draw a smile on people faces from all ages.
