

Galilean Nights Event ID: gn270

Number of telescopes: 2 refracting telescopes, 2 reflecting telescopes, about 80 "You are Galileo" telescopes

Number of organisers: 12

Number of attendees: 100

Event Report:

- Attendees assembled "You are Galileo" telescopes.
- Though we were going to observe the Moon and Jupiter, we gave up because there were no breaks in the clouds.
- We showed video film on the universe.
- We held a quiz game on astronomy.
- We pounded mochi, because rabbits pound mochi on the Moon in Japanese folklore.
